## SUMMARY

React.js and Next.js Developer with 3+ years of total experience building high-performance, scalable, and user-friendly web applications. Skilled in JavaScript (ES6+), TypeScript, Redux, and REST APIs with expertise in modern UI libraries like Material-UI and Tailwind CSS. Proven track record of optimizing performance, improving UX, and delivering features that drive business growth. Strong problem-solving skills, eager to contribute to fast-paced, product-driven teams.

## EXPERIENCE

### React Developer

**Micro Integrated Semiconductor Systems Pvt Ltd** Sept 2025 - Present, India, Maharashtra, pune  
(Previously Monarch Tech Solutions & Systems Pvt. Ltd., a subsidiary of Monarch Surveyors & Engineering Consultants Ltd.)

- Designed and developed the official event website for [Geeta Mahotsav](#), a large-scale cultural and spiritual event with nationwide visibility.
- Designed and developed a full-stack internal admin panel to manage a core company product, owning both frontend and backend implementation.
- Developed RESTful APIs using Node.js and Express.js to handle authentication, business logic, and CRUD operations.
- Designed and integrated MySQL database schemas to store and manage product, user, and operational data.
- Tech Stack- Javascript, Typescript, HTML, CSS, ReactJs, Redux, Vite, NextJs, Tailwind, Nodejs, Expressjs, MySQL.

### Reactjs Developer

**Neuromonk Infotech Pvt Ltd** Feb 2023 - Aug 2025, India, Maharashtra, pune

- Built and maintained **scalable web applications** using React.js, Next.js, and TypeScript, improving performance and user experience.
- Implemented **SSR & SSG in Next.js** to boost SEO rankings and improve page indexing speed.
- Collaborated with design and backend teams to integrate UI elements, ensuring seamless functionality and user experience.
- Implemented state management using Redux, improving application scalability and maintainability.
- Optimized front-end performance by identifying and resolving bottlenecks, resulting in a increase in page load times.
- Tech Stack- Javascript, Typescript, HTML, CSS, ReactJs, Redux, Vite, NextJs, Tailwind, React Native.

### Jr. UI Developer (Freelance)

**Reget Enhancing Technology**

Oct 2022 - Jan 2023, Remote

- Collaborated with design and development teams to implement user interfaces that are visually appealing and highly functional.
- Assisted in maintaining and updating UI components to ensure consistency across applications.
- Integrated REST APIs to dynamically fetch and display data on the user interface.
- Tech Stack- JavaScript, HTML, CSS, React.Js.

## CERTIFICATIONS

### Frontend Development

Felix-it system, Pune • 2022

## EDUCATION

### AGTI's, DACOE, Karad

Bachelor of Engineering in Mechanical Engineering • 2021 • 68%

**Aabasaheb patil college of science, Nave paragon • Kolhapur, Maharashtra**  
HSC • 2016 • 73%

**Yashwant Highschool, Kodoli • Kolhapur, Maharashtra**  
SSC • 2014 • 72%

## PROJECTS

### E-commerce Web Application | JavaScript, HTML, CSS, Next.js, Redux, Bootstrap

*Built a responsive e-commerce web application with cart and checkout features.*

- Developed a responsive interface using React.js and Next.js, ensuring seamless navigation and a user-friendly shopping experience.
- Designed and developed role based admin panel to efficiently manage customer data, including orders, profiles, and inventory also manage products with its variant.
- Integrated **Shiprocket** for order logistics and **CCAVenue** as the payment gateway.

## **B4-School- Early Childhood Education Platform | JavaScript, React.js, Bootstrap**

*Developed a static, responsive website aimed at providing educational resources and tools for early childhood learning.*

- Designed and implemented a clean, intuitive interface using **React.js**, and **Bootstrap**, ensuring seamless access to product information and educational materials.
- **UI/UX Design Implementation:** Collaborated with designers to translate wireframes and mockups into functional and visually appealing components.
- Collaborated with content creators and stakeholders to present educational resources, such as interactive learning tools and early developmental aids, in a structured and visually appealing manner.

## **Turf & Villa Booking System | TypeScript, Next.js, Redux, Material UI, Tailwind CSS**

*Built a full-featured online booking platform for sports turfs and villas.*

- Developed the platform using React.js, Next.js, and TypeScript, styled with Tailwind CSS and Material UI.
- Integrated **Razorpay** for secure payment processing.
- Included real-time availability, booking calendar, user authentication, and an admin panel.
- Deployed via **Vercel**, with continuous integration using **GitLab CI/CD**.

## **Skills**

---

**Front-End Development:** React.js, Redux/Redux Toolkit, JavaScript (ES6+), Next.js (SSG, SSR, CSR), React Native, TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS, Material UI, RESTful API

**Back-End And Database (Basic Knowledge):** Node.js, Express.js, MySQL

**Deployment:** Clodexter, Vercel, Netlify, Caprover, GitHub pages

**Development Tools:** Git, Gitlab, GitHub, Vs Code, Jira
